SENATE BILL

No. 11

Introduced by ~~Senator~~ *Senators Beall and Mitchell*

(Coauthor: Senator Hertzberg)

(Coauthors: Assembly Members Chávez, Frazier, and Maienschein)

December 1, 2014

An act to add Sections 13515.26 and 13515.27 to the Penal Code, relating to peace officer training standards.

LEGISLATIVE COUNSEL'S DIGEST

SB 11, as amended, Beall. Peace officer training: mental health.

Existing law requires specified categories of law enforcement officers to meet training standards pursuant to courses of training certified by the Commission on Peace Officer Standards and Training (POST). Existing law requires POST to include in its basic training course adequate instruction in the handling of persons with developmental disabilities or mental illness, or both. Existing law also requires POST to establish and keep updated a continuing education classroom training course relating to law enforcement interaction with developmentally disabled and mentally ill persons.

This bill would require POST to include in its basic training course an evidence-based behavioral health classroom training course *and instructor-led active learning, such as scenario-based training*, to train law enforcement officers to recognize, deescalate, and refer persons with mental illness or intellectual disability who are in crisis. The bill would require that this evidence-based behavioral health classroom training course *and instructor-led active learning* be 20 hours long and be in addition to the basic training course's current hour requirement.

The bill would also require POST to establish and keep updated an evidence-based behavioral health training course as part of its perishable skills training under its continuing professional training requirement. The bill would require that this evidence-based behavioral health training course be a minimum of 4 consecutive hours of the total hours required in each 4-year period for perishable skills training.

By imposing additional training costs on local law enforcement agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
